

RESOLUTION NO. 2009-03

**A RESOLUTION OF THE COCONINO COUNTY BOARD OF SUPERVISORS
IN SUPPORT OF ACCELERATED LANDSCAPE-SCALE, CONSENSUS-
BASED, INDUSTRY-SUPPORTED COMMUNITY PROTECTION, FOREST
RESTORATION, AND FIRE MANAGEMENT ACROSS NORTHERN ARIZONA**

WHEREAS, Coconino County has experienced degraded forest and watershed health conditions over the past several decades, most significantly represented by large, unnaturally severe fires in fire-adapted forests throughout the county;

WHEREAS, the *Statewide Strategy for Restoring Arizona's Forests* has developed social consensus across the state regarding the need for landscape-scale, scientifically informed community protection, restoration, fire management, and sustainable economic development strategies for the next 20 years;

WHEREAS, the *Analysis of Small-Diameter Wood Supply in Northern Arizona* recently clarified consensus among a wide variety of stakeholders regarding the type and location of ecologically appropriate, science-informed forest thinning treatments across northern Arizona; and

WHEREAS, accelerated landscape-scale, consensus-based, industry-supported community protection, forest restoration, and fire management activities will enhance the ecological and economic health of northern Arizona's forests and provide innumerable benefits to northern Arizona's communities, including protection from unnaturally severe wildfires, as well as jobs and sustained economic revenue.

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Coconino County hereby adopts Resolution 2009-XX requesting that the U.S. Forest Service and the Office of the Governor:

- 1) Validate and institutionalize the consensus agreement reached in the *Statewide Strategy* and the *Analysis of Small-Diameter Wood Supply in Northern Arizona* in any and all relevant forest planning processes.
- 2) Establish landscape-scale planning, implementation, and monitoring mechanisms that allow the Forest Health Council and other relevant collaboratives the opportunity to continue building and translating social agreement within the context of accelerated treatments across northern Arizona.
- 3) Aggressively pursue the development of long-term stewardship contracts and/or agreements (beyond those already in place) that support an additional annual 30,000 acres of mechanical thinning over a 20-year period, as prescribed by the *Supply Study* consensus agreement parameters.
- 4) Identify, bolster partnerships with, and direct contracts towards those industries with a proven collaborative record, and with the ability to substantially offset

planning, administration, preparation, and treatment costs in the process of meeting the ecological goals identified within the *Supply Study*.

- 5) Clearly identify additional federal appropriations needed to support acceleration of consensus-supported and scientifically informed forest restoration treatments across northern Arizona, and support Arizona's congressional delegation in its efforts to secure those appropriations.

ALSO BE IT RESOLVED that the Coconino County Board of Supervisors urges the Arizona congressional delegation to work to secure federal authorizations and appropriations needed to support the acceleration of consensus-supported forest restoration treatments across northern Arizona.

PASSED AND ADOPTED by the Coconino County Board of Supervisors in Flagstaff, Arizona, this 20th day of January, 2009.

APPROVED:

COCONINO COUNTY BOARD OF SUPERVISORS

Matt Ryan

Chairman

ATTEST: Clerk of the Board

Clerk

APPROVED AS TO FORM:

County Attorney
